MIRACLE RECREATION BELIEVES

# Kids want action.

They want their hearts to race with excitement as they explore new and interesting landscapes. They want their minds to churn as they work out how to overcome the next obstacle. They want their skills to strengthen as they climb, slide, and perform all kinds of incredible feats.

Our latest and most innovative products achieve just that—creating opportunities for kids of all ages and abilities to have fun, connect, and grow through the Miracle of Play.

**We're Shaping the  
Future of Play<sup>®</sup> One  
Playground at a Time.**

BEST BUDDIES

Miracle

# Best Buddies® + Miracle® Inclusive Playgrounds

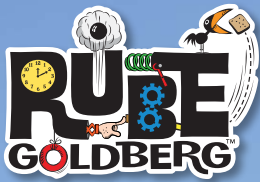

Best Buddies® International and Miracle® Recreation have teamed up to create truly inclusive play spaces for people of all abilities, including individuals with intellectual and developmental disabilities (IDD). Together, we are dedicated to delivering play experiences that embody true inclusion—starting with kids at the grade-school level, when they first form their social awareness and behaviors.

## **BEST BUDDIES® BUDDY BENCH**

This is so much more than a park bench. A symbol of empowerment and a rallying point, Best Buddies® Buddy Benches promote a culture of inclusion that will last for generations in your community. They may be purchased separately or serve as the final touch to your Best Buddies + Miracle Inclusive Playground.

BRINGING STEAM TO THE PLAYGROUND

# Rube Goldberg® Miracle Machines™

Featuring levers, pulleys, slides, and switches for kids to manipulate, Rube Goldberg® Miracle Machines™ add a touch of whimsy to any playground. These elaborate play panels are designed to thrill and engage the senses for everyone ages 2 and up (CSA 18 months+), helping to develop cognitive and fine motor skills as well as provide insights into cause-and-effect relationships.

To make this series of mechanical chain reaction play panels, we collaborated with The Rube Goldberg® Institute for Innovation & Creativity, a family-run, nonprofit organization that uses the legacy of its namesake to promote equity and access in STEM and STEAM education. A Rube Goldberg Machine® is a delightfully over-complicated contraption that completes a simple task in the silliest way possible.

**STRIVE PAST THE STRATOSPHERE**

# Physics<sup>®</sup> Moon

Our most popular collection, Physics<sup>®</sup> Moon features exciting, complex challenges that transform kids ages 5 - 12 into lunar explorers! In addition to providing opportunities for kids to strengthen their physical skills, these freestanding climbers inspire kids to be bold and confident in their decision making as they choose where and how to navigate each structure.

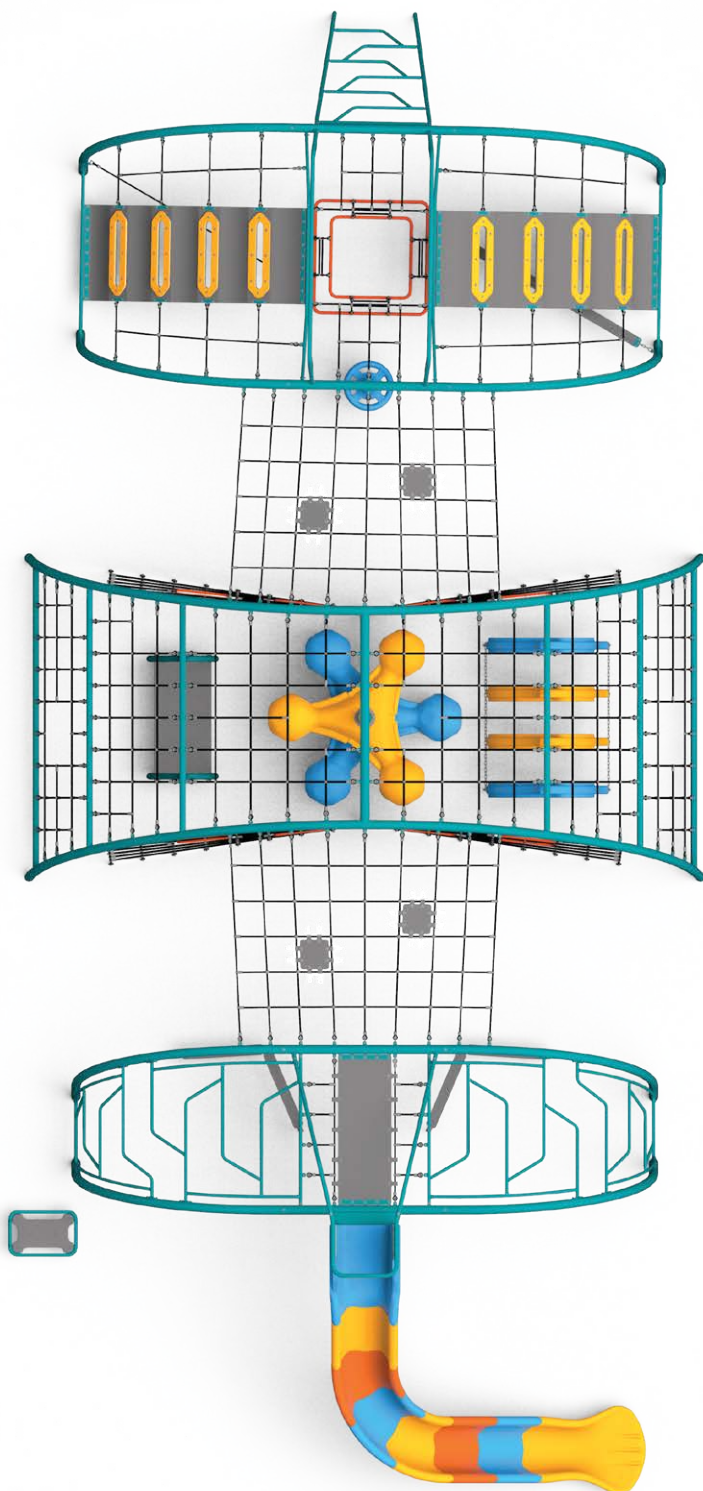

## PHYZICS® CRESCENT

A hub for creative climbing, Physics® Crescent features flextread, rotomolded plastic foot and handholds, climbing nets, a steel ladder, and a Bumper Ladder. Complete with an open center, this versatile climber encourages kids to explore freely.

## PHYZICS® NEW MOON

Physics® New Moon brings rope and Miracle® legacy pieces together to create an entirely playable surface! Kids can venture across climbing nets to reach JAX® and Hurricane climbers, or simply hang out together on the interior flextread hammock.

## PHYZICS® PHAZE

Asymmetrical rungs lead to Chameleon Slide on this arched climber, presenting kids with both a thrilling challenge and rewarding goal. Suspended bars at varying heights provide further opportunities for climbing and socializing at the ground level.

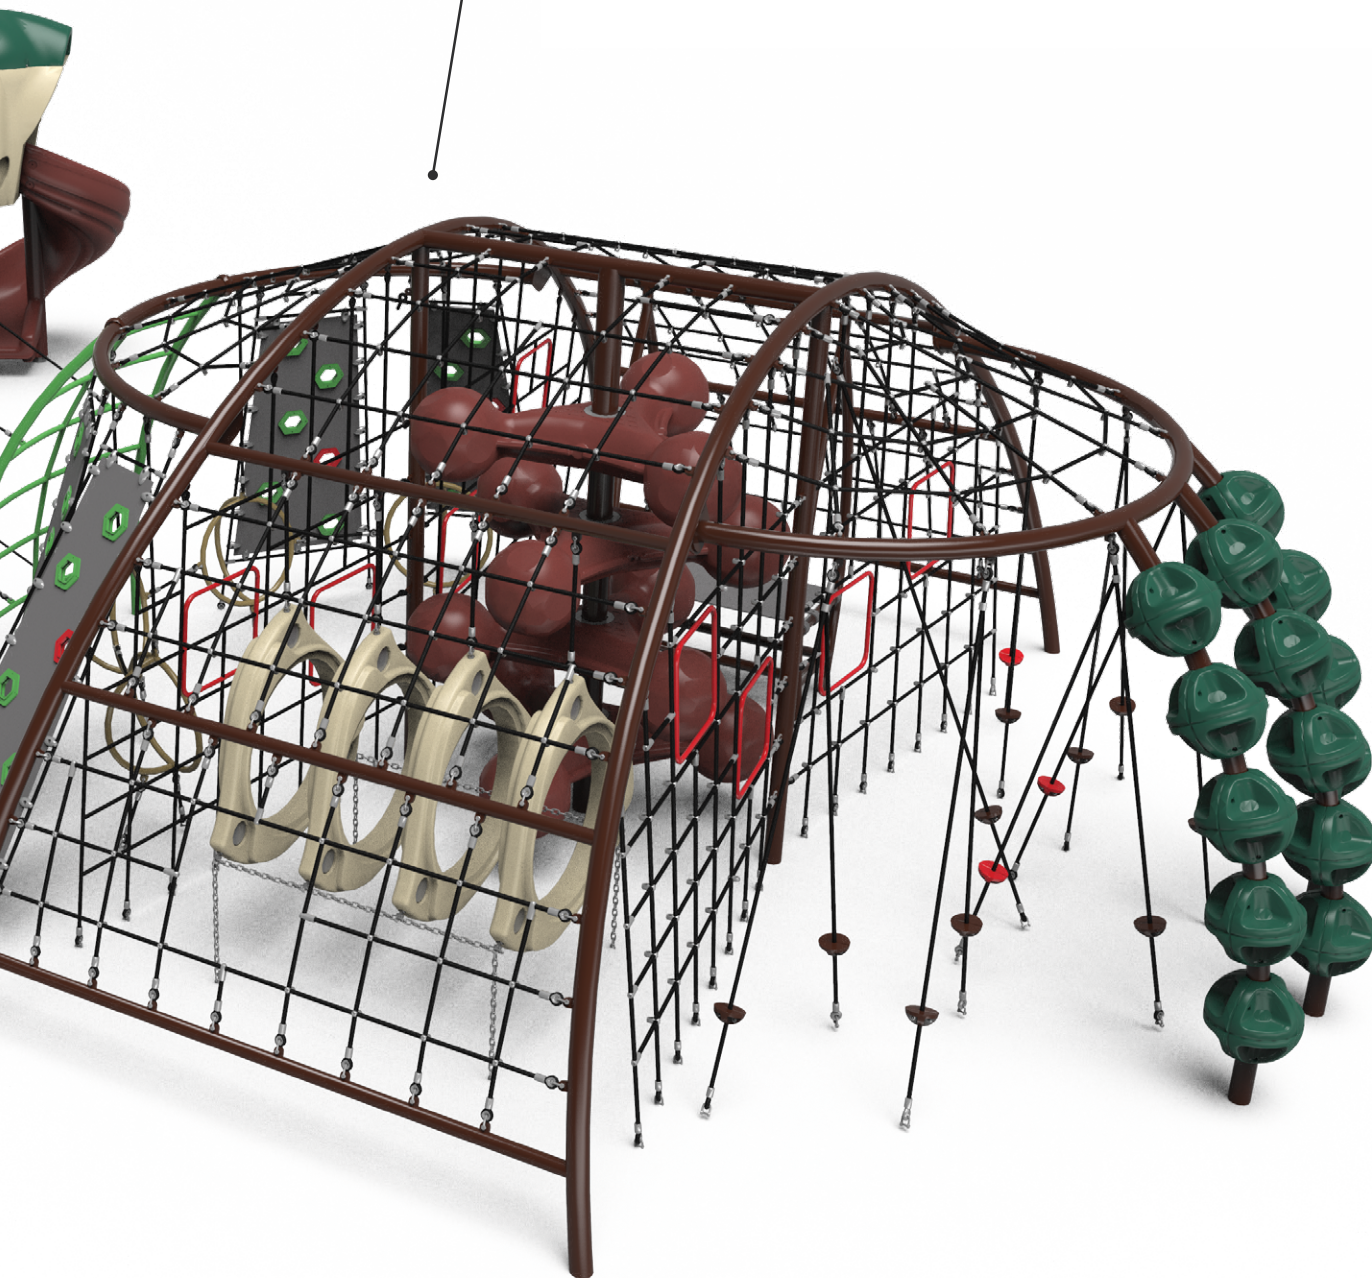

## PHYZICS® LUMEN LINK

Three ropes form this simple yet challenging component. With two ropes overhead and rungs along the bottom, kids can develop their balance and coordination as they transition between Physics® Moon structures and the deck of another structure.

## • **PHYZICS® FULL MOON FOR LUMEN LINK**

Not only is Physics® Full Moon packed with play value—it adds curb appeal to any playground! Kids from across your community will be drawn in by its expanse of climbing challenges including nets, Orbs, JAX®, Hurricane climbers, and more.

CHOOSE YOUR CLIMB

# Hyperbolix™

A versatile piece of equipment, Hyperbolix™ can be used as a freestanding climber or as a component that connects structures and platforms. Its unique shape allows for designers to get creative with the playground's layout and makes for an easy way to provide an extra touch of challenge for adventure-seekers.

## **HYPERBOLIX™**

No matter which way you put it, Hyperbolix™ presents an exciting challenge to kids' proprioception and vestibular systems! In addition to a steel hexagonal frame and climbing nets, Hyperbolix features a center that may either be left open for kids to climb through or covered with flextread to create a spot for socializing.

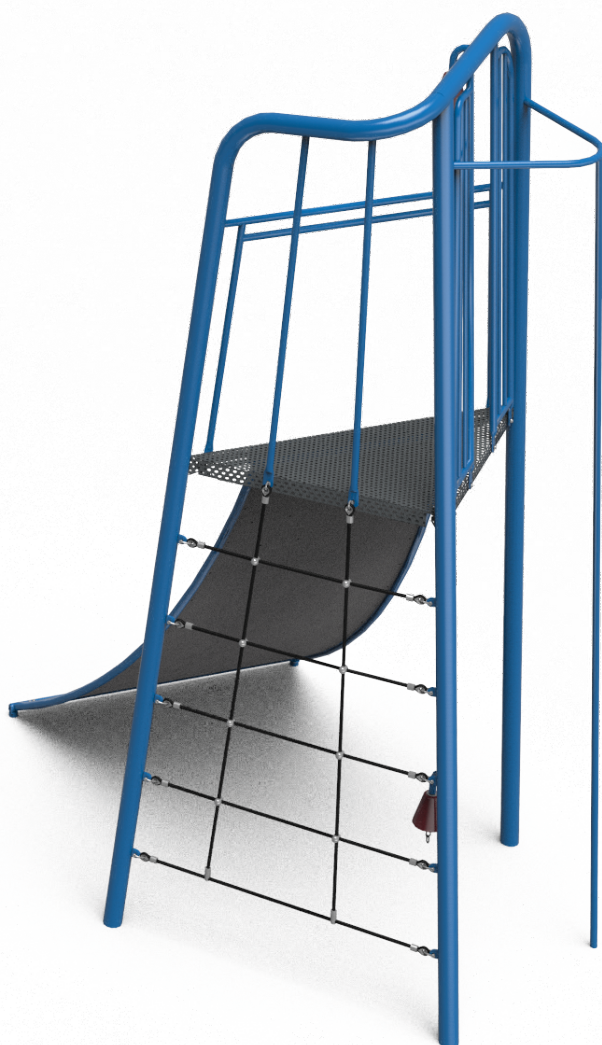

AN ATHLETIC ADVENTURE

# Champions Trek™

Champions Trek™ gets hearts pumping and feet flying faster than ever with a thrilling lineup of challenges to conquer! Perfect for creating obstacle courses, kids ages 5 – 12 can leave their mark on your playground's history book or enjoy their own sense of accomplishment as they climb, swing, and race their way across this collection. Include Hyperbolix™ as well for a truly unique experience!

Products shown (clockwise from center): Balance Orbs, Vector Pass, Hyperbolix™ Horizontal High, Hyperbolix™ Horizontal Low, Agility Wall, Xtensions, Hyperbolix™ Vertical (2)

## AGILITY WALL

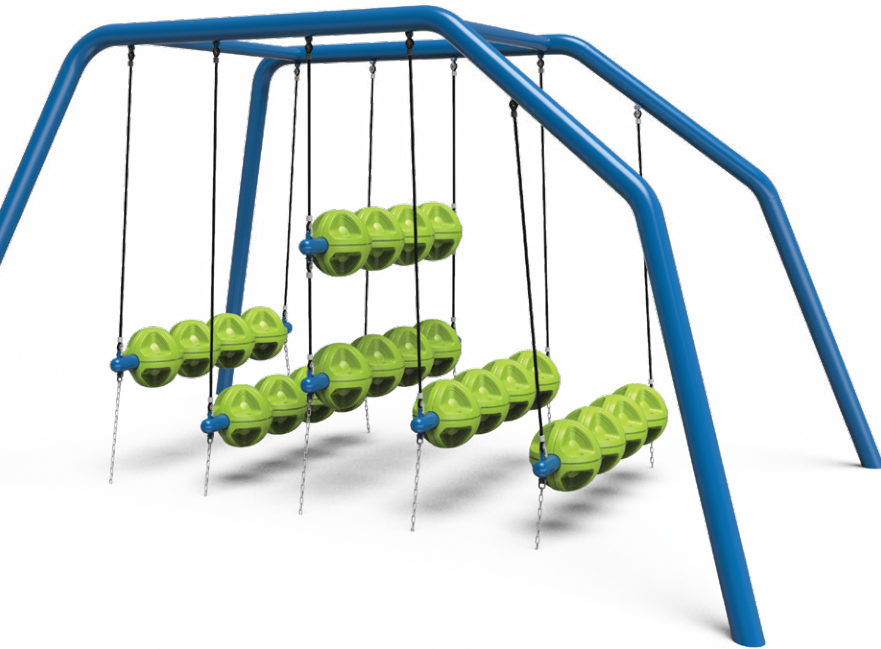

Kids can scale this curved wall using their own agility or the staggered handholds for assistance. Upon reaching the top, they can ring the bell in celebration and let everyone know of their achievement before sliding back down on the steel pole.

## XTENSIONS

Presenting kids with a cognitive as well as physical challenge, this obstacle features a series of uniquely shaped climbers with a variety of foot and handholds. As kids weave their way from one side to the other, they'll improve their strength, coordination, and creativity.

## BALANCE ORBS

---

This obstacle tests balance and coordination as kids do their best to maneuver across rows of orbs. Kids can choose to go over or under an extra row in the center, adding an extra touch of difficulty to help develop their decision-making skills and physical ability.

---

## VECTOR PASS

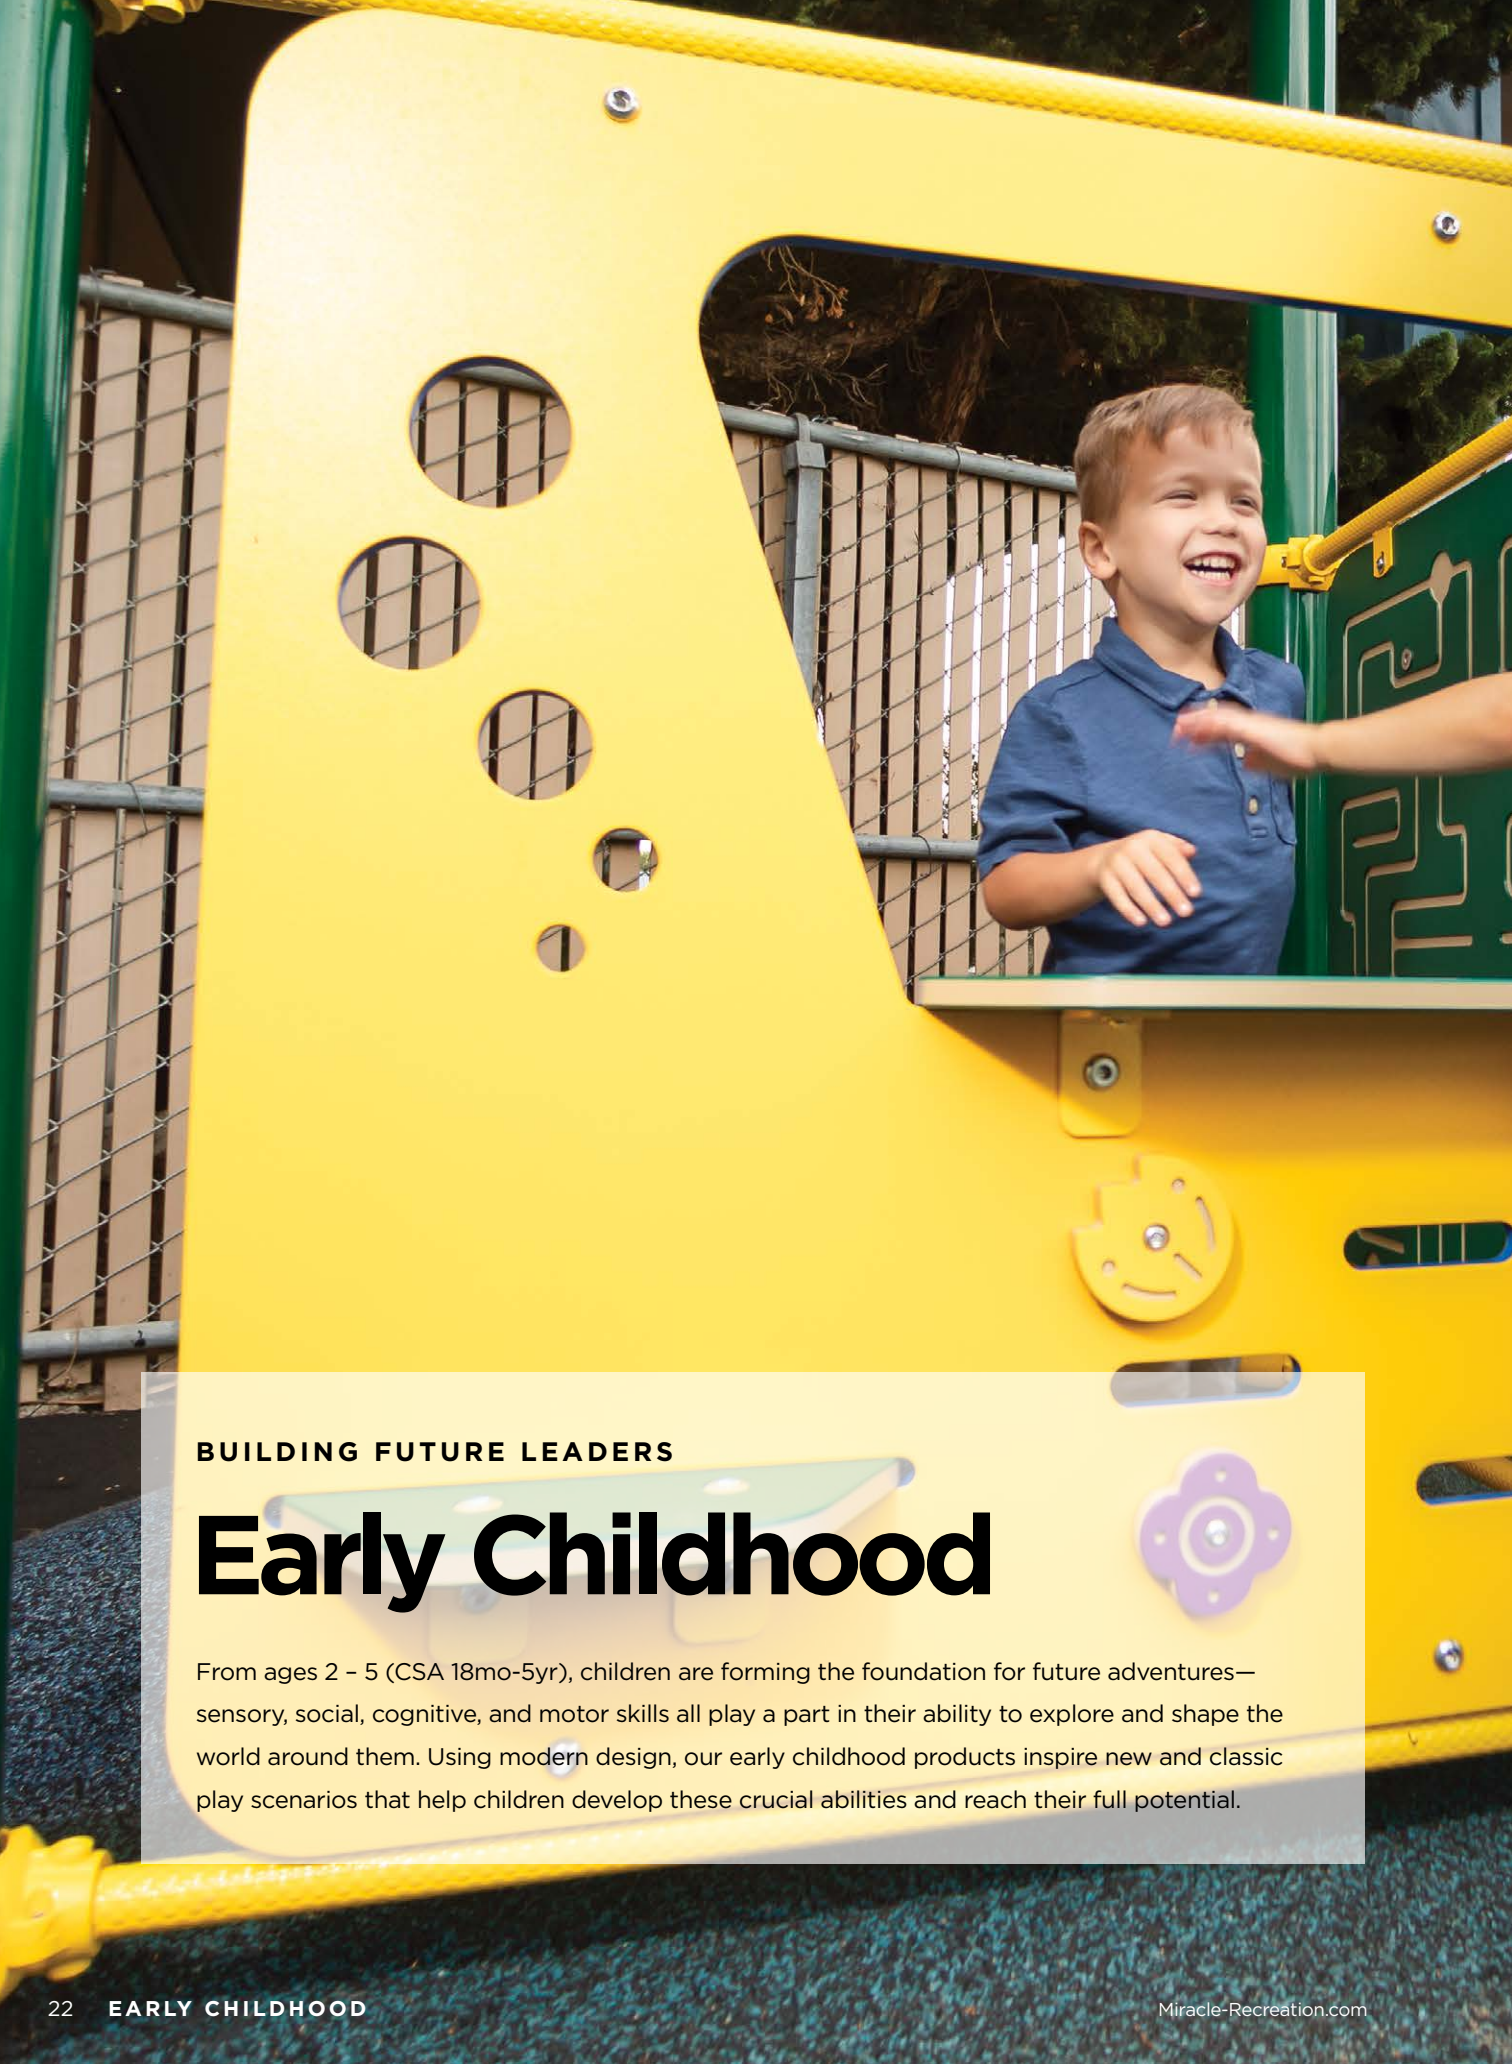

---

This overhead obstacle featuring wheels and handlebars provides kids with an exciting full-body workout that bolsters their confidence and sense of accomplishment. Both the wheels and handlebars spin, adding extra challenge for both beginning and veteran climbers.

---

**BUILDING FUTURE LEADERS**

# Early Childhood

From ages 2 - 5 (CSA 18mo-5yr), children are forming the foundation for future adventures—sensory, social, cognitive, and motor skills all play a part in their ability to explore and shape the world around them. Using modern design, our early childhood products inspire new and classic play scenarios that help children develop these crucial abilities and reach their full potential.

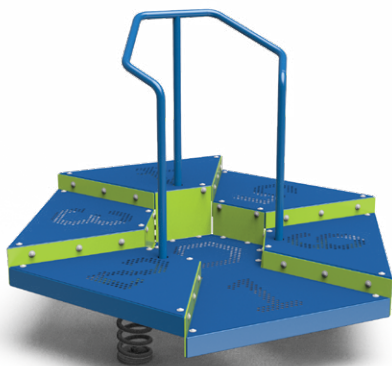

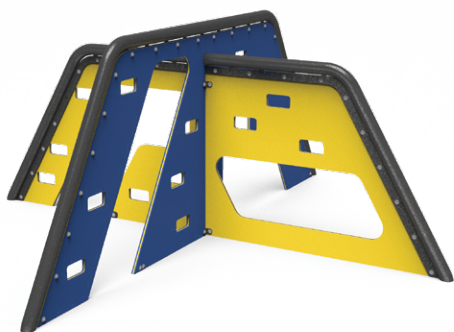

## EARLY CHILDHOOD

Filled with freestanding and modular equipment, our collection of early childhood products provides a variety of engaging opportunities. Whether they're running a flower shop, working with widgets, bouncing and counting, or swinging with a friend, these products encourage children to learn, grow, and play together.

Products shown (from top left): Intersection Climber, Flower Stand Panel, Balance and Bounce, Attic Climber, Thruway Panel

## SENSORY PLAY

# Interactive Panels

Engage kids of all ages and abilities with Interactive Panels! These additions provide a simple yet effective way to introduce accessible, sensory play to your community. Choose from a variety of inserts that each feature a different activity—from colorful, charming chimes to a puzzle that's out of this world.

A low-angle shot of three children (two girls and one boy) smiling and looking up at a playground structure made of vertical metal rods with sliding washers. The background shows a clear blue sky and other colorful playground equipment.

NOW AVAILABLE ON KIDS' CHOICE®

# Miracle Museum™

Experience the joy of Miracle Museum™ in a whole new way! Now available as play panels, these engaging activities add a new element of fun to Kids' Choice structures for kids of all ages and ability levels.

## WASHER PANEL

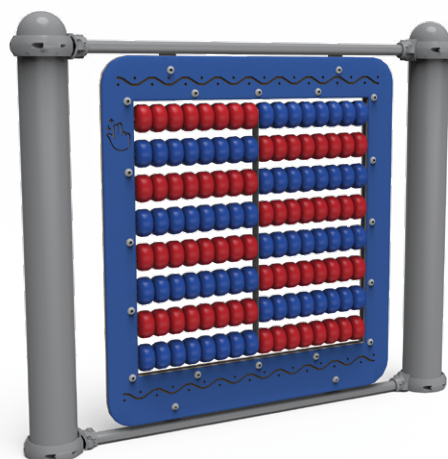

Put gravity to work with Washer Panel! As kids interact with washers on either side of this panel, they'll enjoy exciting sights and sounds as well as learn about cause-and-effect.

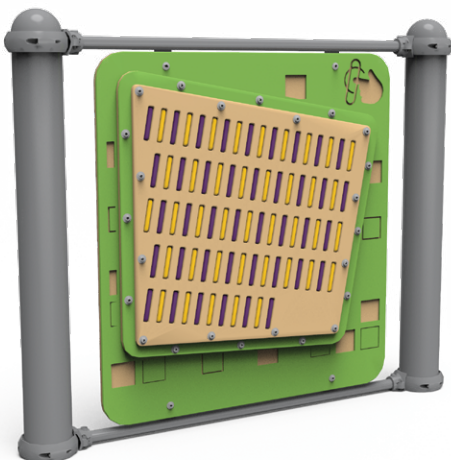

## OPTICAL ILLUSION PANEL

Intrigue and mesmerize visitors with Optical Illusion Panel! In addition to captivating the eyes, this panel gets minds churning as kids try to figure out how it works.

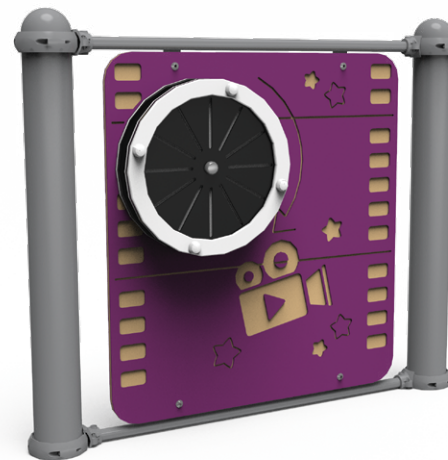

## MOSAIC DISK PANEL

Patterns abound with Mosaic Disk Panel! This panel inspires kids to get creative as they interact with its playful design.

## PUSH PIN PANEL

Enjoy tactile fun with Push Pin Panel! As kids manipulate a series of pins, they'll be able to build their motor as well as sensory skills.

## ZOETROPE PANEL

Explore movement with Zoetrope Panel! Simultaneously educational and entertaining, this panel allows kids to engage with a playful animation.

## SOCIAL PLAY

# Seesaws for All

Everyone deserves to experience the excitement of the playground together! In addition to providing both proprioceptive and vestibular engagement, our seesaws connect families and friends of all ability levels.

### DENNIS SEESAW

---

Both seats on Dennis Seesaw are designed for support and comfort with an optional five-point harness that secures users. Handlebars are located in front of each seat for additional support. A third user may also join in by sitting in the center, using the arched rail as support.

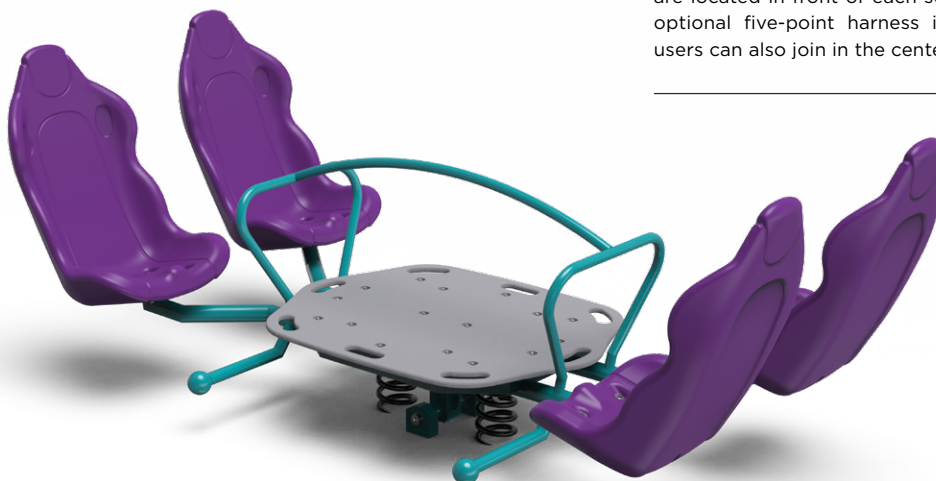

---

### INCLUSIVE SEESAW

---

Inclusive Seesaw features four seats strategically designed to allow those with mobility devices to easily transition on and off of the equipment. Handlebars are located in front of each seat for support, and an optional five-point harness is available. Additional users can also join in the center.

---

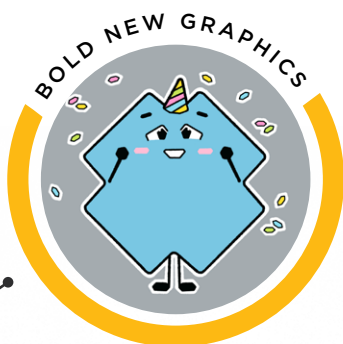

FUN HAS A NEW LOOK

# Modern Play Panels

Miracle Museum™ isn't the only product line with a refresh! We've updated the look of all of our play panels to inspire fresh activity and engagement in your community.

INSPIRE BOLD EXPLORATION

# Modular Components

Indulge kids' curiosity with our Modular Components! Striking colors and adventurous angles set this equipment apart as kids make their way to and from structures—building their strength, coordination, and balance in the process.

Featuring multiple types of climbing, our modular components allow you to add eye-catching challenges to your playground structure that you know will excite the kids in your community.
